

## Problem 1

For the two beams shown below find the shear force and bending moment diagrams and also sketch the deformed shapes.

①

V

M

②

V

M

**Problem 2**

Find all the forces in the truss shown below. All the horizontal and vertical members have lengths  $L$ .

### Problem 3

Find the forces in members  $AB$  and  $AC$ . All the horizontal and vertical members have lengths  $L$ .

$$\sum M_C = 0 \Rightarrow f_{AB} = 0$$

$$\sum M_A = 0 \Rightarrow f_1 = 0$$

self-equilibrated system

cut (2)

$$\sum M_B = 0 \Rightarrow f_2 = 0$$

Equilibrium of node C:

$$\sum F_x = 0 \Rightarrow f_{AC} = 0$$
